By Wisconsin Geological and Survey

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1908 Excerpt: .plans drawn for a dam at Hatfield with a head of 50 feet and this includes a canal from the head of this proposed dam extending downstream about 2 miles. Such a canal would develop a total head of 86 feet by one power plant. But the 50 foot dam would cover up the next important dam site above, viz.: The Dells Dam.--This old logging dam is located in Section 18, Township 23 north, Range 2 west, at the head of a rapids which comprise a fall of 25 feet in a distance of less than a mile. A 30-foot dam in the sitj of the present Dells dam would back the water to the foot of Ross Eddy and this head, in connection with a short canal below the present dam, would develop a total head of 40 feet. I Ross Eddy Rapids.--Ross Eddy, a...
